

Hindustan Electric Motors Vendor List

Vendor Category	Example Vendor/Company	Description	Role in Supply Chain
Raw Materials (Steel)	Tata Steel	Leading supplier of high-quality steel for motor casings and components.	Supplies steel for cast iron motor frames (sizes 80-280) and other components.
Copper Wire Suppliers	Sterlite Copper		Supplies enameled copper wire for stator and rotor windings in electric motors.
Bearings Supplier	SKF India	Manufactures precision bearings for motor shafts and rotors.	Supplies ball or roller bearings to ensure smooth motor operation and durability.
Insulation Materials	DuPont India	Supplies insulating materials like Nomex for motor windings.	Provides insulation for high-efficiency motors to prevent electrical faults.
Electronic Components	Siemens India	Supplies electronic components like sensors or controllers for motor systems.	Provides components for advanced motor control systems (e.g., variable frequency drives).
Authorized Distributor	Innovators Pune	Authorized channel partner for Hindustan Electric Motors, distributing motors.	Distributes motors to industrial and commercial clients across India.
Service Centers	Local Service Centers	Network of service centers for motor maintenance and repair.	Provides after-sales service, repairs, and maintenance for Hindustan motors.
Packaging Suppliers	UFlex Limited	Supplies industrial packaging for motor transportation and storage.	Provides durable packaging to protect motors during shipping to distributors.
